Restriction to one of the following invention is required under 35 U.S.C. 121.

Group I: Claims 7-10, 15, 16, and 28-30 drawn to compositions and methods for treating cancer employing an enhanced combination of formulas IV and I or III.

Group II: Claims 11-14 drawn to compositions containing an enhanced combination of formulas IV and III.

Group III: Claims 17-20 drawn to a composition of formula I or III.

Group IV: Claims 40-45 drawn to a method for treating cancer employing formula IV alone.

Group V: Claim 34-36 drawn to treating cancer employing an enhanced combination of formula I and III.

If Applicant elects Group I, II or V, he is further required to elect a single enhanced combination of one compound of formulas I, III and /or IV for examination on the merits.

1. The several inventions above are independent and distinct, each from the other, as they have acquired a separate status in the art of treating cancer as a separate subject matter for inventive effect and require independent searches. It is noted that a reference to one enhanced combination of drugs would not be a reference to another enhanced combination of drugs under 35 U.S.C. 103. Further, the claims read on a multitude of enhanced combination of drugs, which would require many field of searches that would be an undue burden on the Examiner. Therefore, restriction for examination purposes is proper.

Applicant is required to make a provisional election even though this requirement is traversed.
